

Holley Park Academy Year 4 Miss Mackay

We have had a wonderful Autumn term in Year 4! All the boys and girls have been very enthusiastic about what we have been learning and have worked very hard indeed! Have a look to see what we have been up to...

SCIENCE

We have been investigating forces and magnets, which the children have loved!

The children have supported a lot of charities this term such as Children in Need.
Thank you!

ART

OUTDOORS: The children have worked as a team in the garden. They have been litter picking, planting spring bulbs, weeding and clearing up the planting beds.
