

Holley Park Academy Year 1 Mrs Kelters

Year 1 have worked extremely hard again this term and had fun at the same time! Here are some of things we have done in the Spring term...

Our visit to The Discovery Museum

We had a fantastic time on trip to The Discovery Museum. We enjoyed exploring the museum and taking part in a workshop where we investigated different materials and then made our own boats and tested if they floated! Well done Year 1!

Our topic (based around Geography, English, History, Science and Art) has been based on Great Explorers of land and sea; Neil Armstrong and Captain James Cook. We have found out lots of facts about these famous explorers and created some lovely artwork. We learnt about what life would have been like on a rocket and on a ship like The Endeavour.

World Book Day

We celebrated World Book Day in March by dressing up as our favourite characters. We also read with our buddies and joined a reading workshop led by Axel Sheffler.

Numeracy

In numeracy, we have been finding different ways to measure including standard and non-standard measures. We used cubes, hands, feet and rulers to measure height and length and we also used scales to compare the weight of objects around the classroom.

Science Week

We enjoyed taking parts in different experiments during British Science Week.

Art

We wanted to create a space theme display in our classroom. We looked at artwork by the artist Peter Thorpe and how he uses more than one media style in his designs. We tested different media and created our own space themed art.
