

Holley Park Academy Year 3 Miss Hownam

The end of the Spring Term is here and Year 3 would like to celebrate our work and achievements.

Our topic has been based on 'The Romans'. We have also covered lots of Science and PSHE and discussed mental health, friendships & relationships. We have worked collaboratively to produce posters about how we can help to save our planet and recycle more!

Big Maths

We have been working outdoors to improve our understanding of statistics by creating bar charts.

We also used trundle wheels to measure the perimeter of the school playground.

Segedunum Roman Fort

We visited Segedunum Roman Fort, where we explored the ruins and experienced what it would be like to train as a Roman Soldier.

Science Week

During Science Week, we carried out lots of experiments- we even managed to create rainbows using Skittles!

Buddy Time

We have enjoyed spending time with our buddies, reading together in our reading corner.

Jubilee Day

This year marks 70 years since Elizabeth became Queen. To start the celebrations, we had a 'Jubilee Day'. We took part in lots of fun activities and planting our own tree for the Queen's Green Canopy.

World Book Day

We celebrated 25 years of World Book Day by dressing up as our favourite book characters. We completed lots of activities including a live online lesson.

Art and Design

Year 3 brought our class book 'The Iron Man' to life by creating him using junk materials.
