

Holley Park Academy Year 4 Miss Mackay

We would like to celebrate all of the amazing achievements made by the children during the spring term. We have learned more about the Romans, found out about the digestive system in science, designed a well-being garden and learnt how to keep safe online.

Science Week

We did lots of different enquiries linked to growth, planted strawberries and learnt about famous scientists during science week.

Jubilee Day

We took part in a Jubilee Day to start the celebrations for the Queen's 70 years on the throne. We have also planted trees as part of The Queen's Canopy.

Segedunum Trip

We went to visit the Roman fort, learnt how to be a Roman soldier, explored the fort and went on a fact finding mission!

RSPB Bird Watch

We took part in the RSPB Birdwatch.

Reading

We took part in World Book Day, did a 'Book Tasting' session in class, have enjoyed reading in our new book corner and outside in the sunshine.
