

Holley Park Academy Year 6 Miss Crowther

The end of the spring term is here and Year 6 would like to celebrate our work and achievements.

Our topic has been based on local landscape changes. We have also covered lots of Science and PSHE and discussed mental health, friendships & relationships. We have worked collaboratively to produce presentations about how we can help to save our planet and recycle more!

Derwent Hill

Year 6 had the most amazing time in Derwent Hill, enjoying a variety of fantastic activities that saw them all working together to build on their teamwork skills. The children took part in canoeing and rafting as well as battling the death swing and the leap of faith (and survived). Year 6 enjoyed gorge walking, where they got to swim in the gorge and shower underneath a waterfall.

Science Week

During Science Week, we carried out lots of experiments- we even managed to create rainbows using Skittles!

Outdoor Activities

Year 6 have planted their own strawberry and potato plants. We will keep you all updated on the progress in the upcoming term.

World Book Day

For World Book Day, the children enjoyed dressing up as their favourite book characters and we completed mystery author games and created comic strip versions of our favourite books.

Jubilee Day

This year marks 70 years since Elizabeth became queen. To start the celebrations, we had a 'Jubilee Day'. We took part in lots of fun activities and planting our own tree for the Queen's Green Canopy.
